Technical Specifications

GLOVE RACK / CAP BELT

Description :

This safety clip-on glove holder allows for easy attachment and transport of personal protective equipment (PPE) such as gloves, caps, or other lightweight accessories. Designed for professional use, it provides quick access to PPE while freeing up pockets. Lightweight and durable, it is made from metal-free, non-conductive materials and incorporates a breakaway system to minimize risks in case of accidental snagging, thus ensuring optimal safety in everyday use.

Caution: Avoid wearing the PPE tether when there is a risk of entanglement by moving machinery.

THE PRACTICAL SOLUTION FOR KEEPING YOUR PPE WITHIN EASY REACH
